

Product Change Notification Letter

Date: July 14, 2026

Product Change Notification #: RD.PCN.148

Dear Valued Distributor/Customer:

We are writing to inform you of an upcoming update to the configuration and protocol documentation for the following products in our portfolio:

Product Name	Part No.
Quick-DNA/RNA HT	R2150, R2151
Quick-DNA/RNA HT – Dx	R2150-E, R2151-E

As part of our continuous improvement process, the kit contents for the above products will be updated as follows:

Component	Part No.	Current Configuration	Updated Configuration
MagBead DNA/RNA Wash 1 (Concentrate)	R2130-1-30, R2130-1-120	2 bottles	3 bottles
MagBead DNA/RNA Wash 2 (Concentrate)	R2130-2-20, R2130-1-80	2 bottles	3 bottles

This adjustment is being made to update the kit contents. These changes are considered low impact and low risk, as they do not affect the performance or functionality of the products.

To facilitate a seamless transition:

- **Implementation Timeline:** This change is effective as of the date of this Product Change Notification. The updated kit configuration will be implemented beginning with the next product lot manufactured.
- **Remaining Inventory:** Existing inventory manufactured prior to the effective date may continue to be distributed until inventory is depleted. The existing inventory will contain the current configuration of the wash concentrate components. The updated configuration will apply to the subsequent product lots that will be manufactured after the effective date.

We request that you share this notification with the relevant personnel in your organization.

Thank you for your continued partnership.

Sincerely,

Erica Carrasco, MSc.
Scientific Collaboration Manager
Zymo Research Corp.
